## ZENITH LOW PROFILE WORKTOPS

Super hardwearing with realistic patterns, textures and a sleek profile, Zenith is a great contemporary alternative to stone, marble & quartz.

Designed to look, feel and perform like stone, Zenith is a solid core laminate. That means it can be cut and fitted on site with no special tools required – and no long and expensive lead times for templating and specialist fitting.

Manufactured for toughness with a thickness of only 12.5mm, Zenith is fully waterproof with a consistent coloured solid core and features a double-sided decorative finish, making it a great choice for cutting into bespoke shapes and creating matching shelves or sills.
